Amy Barrios
Educator in Private Practice

# Private High School Admissions Coaching

*Gaining entrance to private schools takes preparation and planning. Even if you haven't had a "perfect" record (and who has?) you can maximize your chances to get into all the schools you'd like to attend. Contact me to discuss a custom tutoring package that will fit your needs and schedule, and includes a combination of any or all of these:*

- **Appropriate test preparation and test taking strategies in areas identified as weak**
- **Overall planning for the entire admissions process including due dates and checklists**
- **Essay question selection, coaching, guidance, writing, and editing help**
- **Interview coaching and practice**
- **Overview of extra curricular activities and grades and plan, if necessary, to shore up areas of weakness during 8th grade**

Summer is a great time to jumpstart this process. Contact Amy today to discuss how her gentle, proven guidance can help you reach your private high school admission goals:
